1. Between 5 June and 9 July 1955, no air activity was observed on the following days: 5, 6, 7, 10 to 13, 19, 26, and 30 June. On the other days, except on 3 and 4 July, air activity was observed at the field. Some Po-2s and 1 Yak-14 repeatedly made practice flights, the IL-10s practiced local flying in small formations heading southeast. The latter flights lasted about 30 minutes. A total of 62 IL-10s were observed parked at the field on 16 June and 52 IL-10 and 3 Po-2s on 8 July.<sup>1</sup>

2. On 2 July, the PKV-45 DF station                      unchanged. A new set consisting of                      crook-shaped device about 20 in                      about 50 meters east of the DF station since 24 June 1955. Anchoring wires braced the mast at a point 5 to 7 meters above the ground.<sup>2</sup>

3. Six 37-mm AA guns were observed in the northern section of the western edge of the field. Tents for EM were rigged nearby.<sup>3</sup>

4. It was rumored in the town that children suffering from                      would be permitted to fly in an IL-2 temporarily stationed                     . This promise was made to a dentist from Brandenburg whose daughter was ill. Later, however, the promise was cancelled since the dentist was neither a member of the Society for German-Soviet Friendship nor of the SED.

5. On 9 June, truck                      and sedan                      both with drivers wearing black-bordered blue epaulets, were seen moving in the town. Motor vehicles observed on 30 June included tank truck                      and trucks                      the latter three with drivers wearing black-bordered blue epaulets.

6. Air activity was conducted at the airfield on the following days:

June: 18, 22, 23, 27, to 30

July: 1 to 5, 7, 8, 10,                      18 to 21.

Single and formation flights were made by IL-10s which repeatedly included aircraft with red tactics                      IL-10s including 4 without

9. The following observations were made in the Infanterie Kaserne:

the installation was still occupied by air-force personnel. Army soldiers were no longer seen there. It was repeatedly observed that food stuff was transferred from railroad cars on trucks that moved to the Infanterie Kaserne. It was assumed that the barracks installation housed an air-force headquarters which also was the supply service headquarters for the subordinate units. On 19 July, rations were unloaded by air-force soldiers from 3 railroad cars at Altstadt railroad station and subsequently trucked to the Infanterie Kaserne. On 21 July, 3 command cars were being loaded. One major, 2 other officers, 6 to 8 EM, all wearing black-bordered blue epaulets, and truck were observed at the site.

1.  Comment. Brandenburg - Industriehafen airfield is still occupied by a ground-attack regiment equipped with about 40 IL-10s. The aircraft reportedly parked at the field on 16 June and 8 July presumably included IL-10s from another airfield which were temporarily stationed in Brandenburg - Industriehafen. 25X1
2.  Comment. For sketch of new radio set, see Annex. 25X1
3.  Comment. Two batteries of 370mm AA guns are presumably located at the field.
4.  Comment. Efforts will be made to clarify if the ration supply unit of the GA Corps of the Twenty-Fourth Air Army, previously located in Doeberitz, has been transferred to the Infanterie Kaserne. 25X1
